Relaxation

Soft
Steam

Easy
to Use

At the heart of every truly relaxing sauna experience lies a good sauna heater.

HUUM sauna heaters combine the best features of the Nordic sauna with contemporary design and innovative technological solutions. The result is a line of unique sauna heaters that add style to every sauna, not to mention mild and long-lasting steam, ease of use and durability.

The minimalist and organic design of HUUM heaters is inspired by nature and makes the natural beauty of the stones stand out.

- awarded design
- high stone capacity and long-lasting steam
 - made of resistant stainless steel
 - remote control through mobile app
 - made in Estonia

HUUM DROP

DROP is the first heater in HUUM's portfolio, which is inspired by the purest element of nature – a water drop. DROP's rounded design softens and livens up the angular interior of a classic sauna. This compact wall-mounted heater can hold up to 55 kg of stones, exceeding most wood-burning heaters and guaranteeing a long-lasting steam.

4-year guarantee.

The set includes:

- electric sauna heater
- wall frame

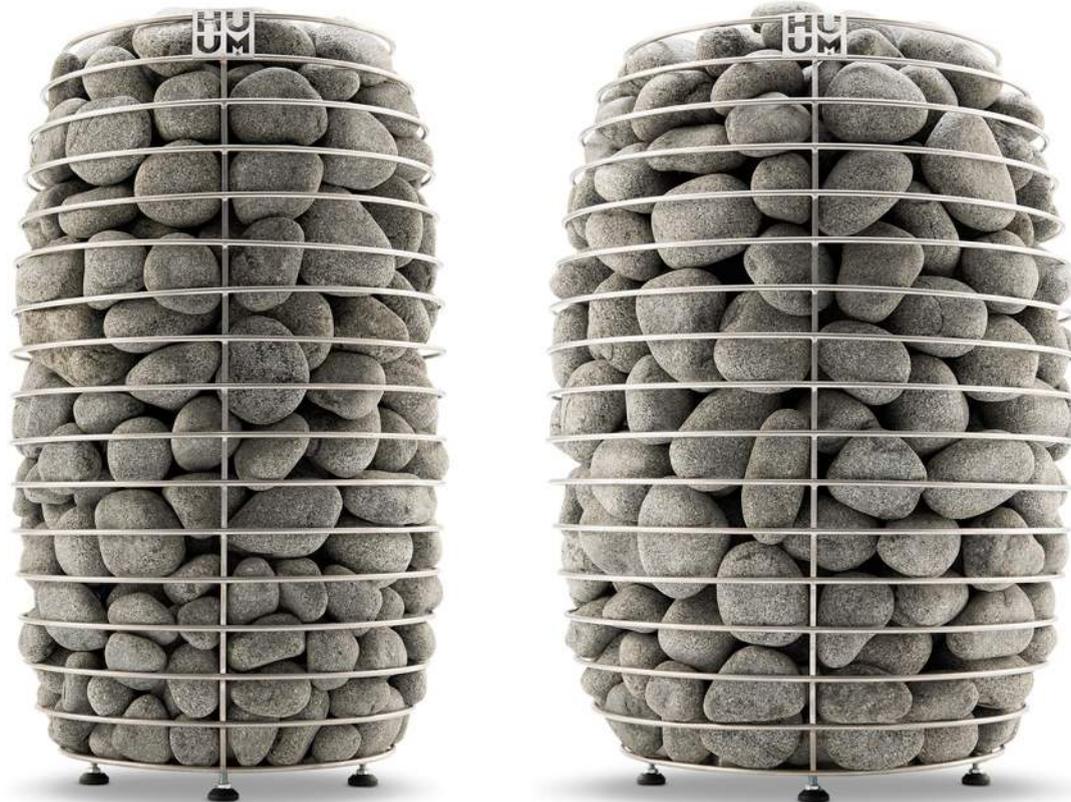

The electric heater requires also:

- stones (rounded and natural)
- control unit (different manufacturers' control units are suitable)

HUUM HIVE

HIVE electric heater is an elegant solution for bigger saunas, for example, sport clubs and spas. This floor-mounted heater holds up to 250 kg of stones, which ensure long-lasting hot steam even for larger groups, without compromising on design. The slimmer HIVE Mini holds up to 150 kg of stones and is suitable also for smaller saunas.

The set includes:

- electric sauna heater
- adjustable legs (lift the heater up to 7 cm)

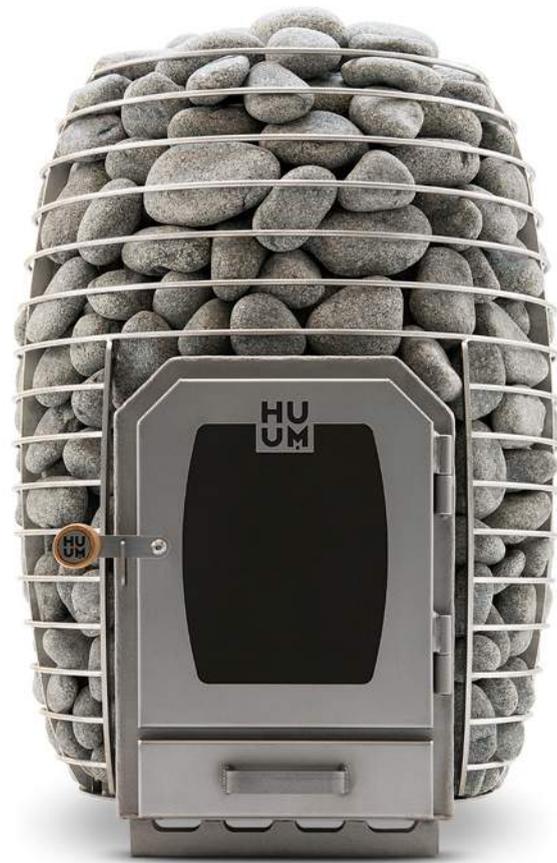

The electric heater requires also:

- stones (rounded and natural)
- control unit (different manufacturers' control units are suitable)

HIVE WOOD

HIVE Wood has taken the ancient wisdom of building sauna heaters to an even higher level. The most sensitive component of the wood-burning heater, the flame tamer, is made of 5 mm thick stainless steel and is therefore exceptionally resistant. HIVE Wood is available also with a firebox extension, which allows you to heat the sauna from another room.

	HIVE WOOD 13 kW	HIVE WOOD 17 kW	HIVE WOOD LS
Output (kW)	13 kW	17 kW	17 kW

HUUM UKU

LOCAL CONTROL CONSOLE

Stylish UKU control console makes sauna heating easy and comfortable. UKU can be used locally and is equipped with door sensor, overheating protection and child safety lock to ensure a safe sauna experience.

- ◆ Temperatures: 50-100 °C
- ◆ For heaters up to 12 kW/24 kW
- ◆ Supply voltage 400 V 3N
- ◆ Overheating protection
- ◆ Child safety lock
- ◆ Timer
- ◆ Colors: black or thermally modified ash tree
- ◆ Connectable to lights/ventilation or steamer

The set includes:

- ◆ Control console (105x55x22 mm)
- ◆ Control console cable (3 m; 4x0,34 mm²)
- ◆ Main module (142x90x58 mm)
- ◆ Temperature sensor
- ◆ Door sensor
- ◆ Temperature/door sensor cable (5+5 m; 2x0,22 mm²)
- ◆ Contactor box

UKU+APP

REMOTE CONTROL CONSOLE

UKU+APP incorporates all the features of UKU local control console while adding an extraordinarily comfortable remote control option through a mobile app. With UKU+APP it just takes a couple of clicks on the mobile to have the sauna heated and ready when you get home.

GSM control console

The GSM version connects to the mobile through an internal SIM card*, which requires a connection to a mobile network.

*Using the GSM remote control solution is free for the first year and costs 29 €/year thereafter.

Wi-Fi control console

The Wi-Fi version requires a connection to a Wi-Fi network in order to communicate with the mobile app.

Wi-Fi control consoles are available on pre-order.

HUUM mobile app

HUUM mobile app allows you to heat your sauna from wherever you are. You can choose the beginning and end time of the heating, set the desired temperature and check the current temperature at any given moment.

- ◆ mobile application (Android, iOS) / web application
- ◆ 5 different languages
- ◆ unlimited number of users
- ◆ notification when the end temperature is reached
- ◆ lights/ventilation or steamer control
